

Southern Regional Load dispatch Centre (SRLDC), Bangalore And High Voltage Direct Current (HVDC), Kolar

1. TESLA organized a technical visit to **Southern Regional Load dispatch Centre (SRLDC), Bangalore on 3rd November 2015**. SRLDC is one of the five Regional Load Dispatch Centers of India. The students could see the Southern Regional SCADA system.
2. TESLA organized a technical visit to **High Voltage Direct Current (HVDC), Kolar on 4th November 2015**. HVDC station at Kolar is one of the rectifier stations in HVDC transmissions of India. The HVDC line is connecting Kolar (Karnataka) and Talcher (Orissa), and is the longest Bipolar HVDC line in India. There the students could see all the components of HVDC Transmission.
