

NIT Goa achieved 77th Position in MHRD NIRF ranking.

It is a very happy and joyful moment for National Institute of Technology Goa and its family for the latest achievement we had by standing in **77th Position** among all the Engineering Institute in the most respected National Institute Ranking Framework (NIRF) conducted by MHRD, Govt. of India.

NIT Goa achieved **77th rank to feature among the 18th position among all NIT's and second position among New NIT's**, despite constraints of infrastructure. This shows that Institutions can't be built with mere bricks and cement and are actually made by its people.

Being ranked among the top 100, we become eligible for higher government grants, we can participate in many Research Project programs and the chances of our students working abroad also becomes high.

The Achievement of NIT Goa family was well appreciated by all our well wishers and supporters. including Honorable Chief Minister of Goa and Officials of Goa and they have conveyed the best wishes & Congratulated the team. Feel so proud to hear these comments from our well wishers and their affiliation with NIT Goa. We thank all MHRD officials, the Honorable members of Board of Governors, Senate members and all Colleagues of NIT Goa.

We thank all our well wishers across country for their kind support in achieving this mile stone, specially Govt. of Goa, DTE, Govt. Of Goa, The Principal, GEC and neighboring Institute for their cooperation and help. We would like to seek continued support from all our well wishers in future.

**Director, Faculty, Staff and Students,
NIT Goa**
