

Interactive Session between Juniors & Seniors

The Civil Engineering Students Council of the National Institute of Technology Goa organized ‘**Parampara**’ - an interactive meet and greet session for the Juniors and Seniors of the Civil Department on 7th April from 2:30pm to 5:00pm in the Seminar Hall in presence of the Civil Faculty.

The session was planned with a set of Ice Breakers and fun games to encourage peer connections and break the first barrier of hesitation in initiating conversations and building new relations. The active participation of the students made the event a great success. Faculty members also eased in with the students who just joined the institute after a long Online session for the first time. The Ice Breaker was followed by Dare to Draw- fun dares to ask for every ounce of courage to accomplish them. Some students as well as faculty members came up and performed their talents for the institute family present there. The most active students were presented with fun prizes in the end. To mark the day a signature chart was provided to the students to write down their thoughts and sign off for the day.

A few Snapshots of event are below:
