

INS Hansa, Vasco-da-gama :

On Thu, 25 Oct, 2012 TESLA organized a technical visit to naval air base INS Hansa. INS Hansa is adobe of Indian Navy's frontline air squadrons.

The objective behind this visit was to gain exposure to various instruments used . The use of spectrum analyser, network analyser, etc. were explained to the students by the experts at INS Hansa. This trip also gave students an opportunity to study sea harrier simulation, and air traffic control (ATC). It also made them aware of the bravery achievements of 'White Tigers'. The trip was headed by Ms Anudevi Samuel and Ms Blessy Lavin (Faculty, NITG).
