WORKSHOP ON ARDUINO

As a part of Mechanical Engineering Technical Association (META), one day workshop on Arduino was conducted on 01.02.2020 (Saturday) by our students successfully for 60 participants from various engineering colleges in and around Goa. The students were trained on various modules of Arduino control and algorithm for the same was explained for better understanding. The workshop ended with the participants assembling three-wheel car drive controlled by Arduino assisted with Bluetooth integrated to mobile app.
